# "By their fruits ye shall know them"

TEAGUE QUALITY TREES are the best in themselves, and must be considered in competition with those selling all lower figures. They are because quality and cheapness are not synonymous, hence do not travel well together. Teague trees are, however, an excellent buy at higher prices, because they always yield tremendous crops of good fruit, and such as profitable results. Hence they are always the best sellers. It costs as much to buy a poor tree and bring it as good one, which is a disastrous mistake with the former and positive with the latter.

Behind every Teague Quality Tree there is over twenty-five years of experience in growing citrus fruits. Thus, there is behind every Teague Quality Tree the finest equipment in the way of modern methods and appliances known to the citrus industry. There is behind every Teague Quality Tree the best soil and climate available throughout California for producing money and lemon trees that "make good." Many of the most profitable citrus groves in California are the result of Teague Quality Trees. Why plant others?

On the following pages are given particulars as to varieties carried in stock, also retail prices. On larger quantities we solicit correspondence from intending planters.

Hoping to hear from you favorably at an early date, we remain

Very truly yours,

**¶** People intending to plant commercial orchards of Citrus Trees are requested to write us particulars as to numbers and varieties of trees that may be required, and we will cheerfully give prices and particulars. **¶** We not only have a large stock to draw from, but a better selection of varieties and a higher quality of tree than any other similar establishment. They are not cheap trees, but Quality Trees.

It is the desire of the Teague Quality Trees Company to furnish the best quality trees at the lowest possible prices for the best results. We do not believe in the practice of advertising the lowest price of the day, because we believe that the best way to insure success is to furnish the best trees at the best possible prices. We do not believe in advertising the lowest price of the day, because we believe that the best way to insure success is to furnish the best trees at the best possible prices.

## THINGS TO BE OBSERVED

*Terms*—State specifically the size and variety of trees you want, and give a few general hints as to your soil and climatic conditions. From unknown parties we demand a remittance or deposit of 50% of order or good references. Send money by bank draft, postoffice or express order, or registered letter.

*Location*—The land upon which our nurseries are situated is conceded to be the best for growing citrus nursery stock, producing a fine grade of tree with a vigorous root system making transplanting safe.

*Quality of Stock*—All of our trees are grown to stakes, and are straight and thrifty, and well rooted. He who plants an orange or lemon grove, plants for generations; hence, in choosing stock be careful to get only the best obtainable.

*Packing*—We pack all trees in the best possible manner, in bales and boxes, according to the size of order and distance of shipment. Trees can be sent with safety to any part of the United States or foreign countries.

*Guaranteeing Trees*—We guarantee all trees shipped from our nurseries to be as represented. We personally attend to the budding of all our trees, and use the utmost care to insure them true to name.

*Transportation Facilities*—Our transportation facilities are excellent, being midway between the Southern Pacific and Santa Fe railroads, hence we ship via either road, also Pacific Electric.

*Shipping Instructions*—Please furnish explicit directions for shipping and by what route. In the absence of any instructions we ship according to our best judgment, but in no case do we assume any responsibility for condition or safe delivery of trees after same have been properly packed and delivered to transportation companies.

*Claims*—Legitimate claims for errors and mishaps will be promptly recognized if made within ten days of the receipt of the goods, otherwise we will entertain no claims of this nature.

*We make a specialty of selecting extra fine specimens of different varieties for potting or lawn planting. Write us your wants in this line and we will make you quotations on same.*
